

Save the American Dream

What about the dream

The American dream

Unity and family

Uncle Sam I'm tired

I'm tired of you

And frankly

I'm tired of calling you uncle

It's a nightmare

There's no peace of mind in a country that is lying

All the damn time

Tell us the truth Uncle Sam

That you do not know what to do

To fix this country and save our economy

Tell us the truth Uncle Sam

That you're blinded by your own greed

While the economy bleeds empty

What about the dream

The American dream

Unity and family

The American dream is choice

Free speech

Free press

Rights as a human being under the law

However, Uncle Sam's too busy passing bills that amend undermine and are insulting to the rights and health of women in this country

Women who rear children as single parents

And provide as head of household

Women who serve and protect in a land that is attempting to take away one less freedom afforded to them under the law

If the woman is paying health insurance then she has paid her dues to do whatever she wants with her body

But Uncle Sam feels it is his obligation to make the decisions for the FREE women of America

As a woman I am not happy about this

Uncle Sam I am not happy about this

This I am not happy about as a woman

Uncle Sam isn't using his powers to pass a workable job bill proposed by the President

A bill that pays for itself

Creating 2.6 million jobs

A bill that will work for the citizens of this country

It's been FILIBUSTERED

Once again

By Uncle Sam

What about the dream

The American dream

Unity and family

And all of this is happening while,

Over 9% of American citizens are unemployed

That's over 14 million Americans, Uncle Sam

Uncle Sam over 14 million Americans are unemployed

48 million people in America suffer from food insecurity, Uncle Sam

Uncle Sam 48 million Americans don't have a full course meal in their stomachs today

That is double since the year of 2000

Uncle Sam

Hard working Americans

College graduates

Skilled veterans

Trade-smiths

We DON'T NEED YOUR

Token legislation

Token leadership

Political grandstanding

The senate majority- Republicans

And they still can't pass a bill

They can't even explain why they won't pass a bill

We still got:

Millions of foreclosures and bankruptcies

Shutting down thriving communities

The bills being approved by Uncle Sam aren't even an infusion into the American job market

Citizens are still unemployed

\$434 billion dollars in unemployment paid

Economically we are dying Uncle Sam

Tax payers pay America's debts

Uncle Sam

With lack of jobs

America's bills don't get paid

Small businesses are the engines that keep America afloat

But all the Republicans are doing is gloat and play the blame game

Uncle Sam I'm tired

I'm tired of you

And frankly I'm tired of calling you uncle

It's a nightmare

There's no peace of mind in a country that is lying all the damn time

Tell us the truth Uncle Sam

That you don't know what to do

Blinded by your own greed

While the economy bleeds on empty

What about the dream

The American dream

Unity and family

Red blood in blue rivers

White has dealt their hand

It's been a long time coming

But their children are dying now because papa can't feed them

Mothers are picking up the gun and delivering bullets to the temples of their young

Because pride won't let them feed their children ramen noodles

For too long they have lived good off the backs of others

Now they ask those others who've eaten ramen noodles all their lives

Lived in the worst housing

And never enjoyed the American dream

To stand side by side with them

To beseech Uncle Sam

Isn't that grand?
