

## ***“...the Boiling point”***

***Add some oil to the water -  
Place the FROG in the pot  
The FROG is indifferent -  
The water is not yet hot***

***Turn on the burner -  
It's starting to get warm  
The FROG doesn't notice -  
Because it seems the norm***

***Eventually it boils -  
The FROG is now dead -  
It came on so gradual-  
Didn't know what lay ahead***

***Now the people do not realize -  
We are in the same game  
It is getting extremely hot-  
Our economy is lame***

***Stored value and labor -  
Have been depreciated  
By an unscrupulous system -  
Dire circumstances created***

***The US Dollar was debauched -  
Fiat currency led to inflation  
Free Enterprise has passed -  
We have ruined our great nation***

***We are at the Boiling Point -  
It is now 'Do-or-Die'  
Checks & Balances gone missing-  
The END GAME is nearby***

***The people must WAKE UP! -  
The Congress brought in hand  
Throw off the chains that bind -  
God save our sovereign land***
